A creative and inspiring interior design practice specialising in the luxury property market founded by Jazmin Clark and Lois Street.

Qualified in Interior Design and Textile Design, collectively we share 27 years experience working domestically and internationally within the luxury property sector.

We believe the most important step in our work is getting to know the customer. Our uncompromising, creative approach allows us to deliver exceptional and inspiring designs that are tailored to each and every project.

JAZMIN CLARK

Jazmin has grown up in a creative environment, living and breathing interior design and sharing her family's love for design, going on to study and qualify as an Interior Designer. Jazmin started her career at a high-end interior design business specialising in family homes and show homes across the Home Counties.

She then went on to become an award winning interior designer working in the heart of London, specialising in interior design for Home Owners, House Builders and Private Clients including some A-list stars! Her projects have won a variety of awards including the Evening Standard Property Award and Best London Home.

Jazmin's passion is creating beautiful homes which reflect their owner's lifestyles and will withstand the test of time.

LOIS STREET

Lois has a true passion for interiors which began whilst studying at the Central Saint Martins where she successfully achieved a BA Hons degree in Textile Design. Lois has a vast and interesting experience within interiors and has a broad understanding of different industries. She started her career as a Set Designer styling spaces for retail, editorial and TV. Lois then went on to become a Senior Interior Designer at the UK's largest interior company.

Over the years Lois has worked with private clients, developers, agents and pied-a-terre dwellers. Her projects included the award winning development, The Olympic Village, where Lois teamed up with Wayne Hemmingway and Qatari Diar & Delancy to design bespoke products and show homes.

Her more discreet and bespoke works are with private clients from around the world. Creating unique homes within London and other national prime residential markets, these have been featured on TV, in top interior and property publications and won industry awards.

“Thirteen quickly and effortlessly transformed our 5 bedroom Ski Chalet in Courchevel into a contemporary yet cosy space, that our family and friends could enjoy together. The entire project was delivered within 4 weeks (ready for the snow) without compromise. They made sure it was completely ready for our stay down to a fully stocked bar and our favourite toiletries in the bathroom. I was busy working in London so to be able to rely on their expertise was invaluable.”

“Thirteen were a pleasure to work with from start to finish. The show apartment they delivered for a new homes development on Abbey Road looks fantastic, with some beautiful bespoke features and is perfectly styled for this trendy North London address. Their attention to detail and passion for the project really showed throughout the process. We would love to work with them again in the future.”

“ The end result is quite simply beautiful, it far exceeded mine and my family’s expectations. Thirteen took my brief and ran with it and I am so thrilled with the transformation. The apartment is a ‘London home from home’ full of colour, texture and most importantly it feels luxurious, warm and comfortable. Thirteen are an absolute pleasure to work with, I would not hesitate recommending them to anyone. ”

“ We are grateful to have had Thirteen’s expertise through two house renovations. It was a very flexible process and they managed to combine fresh suggestions with existing ideas and furnishings. Every last detail was thought about, from proposals for bespoke furniture pieces down to the texture of the wallpaper. Execution was smooth as well which saved us a lot of hassle! We would be excited to use Thirteen again on our next project. ”

THE KEY

AND THE
essence
OF THE
SPACE .

“ From the inception, through the design process, and its ultimate installation, I could not find fault. Every little detail was considered and modified as requested, to suit the individual requirements for my London Pied a Terre. The customer experience was refreshing as they took time, care and attention to deliver a truly individual design. Their corner stones of creativity design and service shone through and I would confidently recommend Thirteen. ”

- Mr Al-Siddiqi, Private Client
Saudi Arabia

“ We appointed Thirteen Interior Design to work with us on the design, procurement, delivery and installation of our apartment in SW1. The apartment was a new build. Jazmin and Lois are an excellent team and the work was completed on time and on budget. What we valued in the way Thirteen approached their work is their willingness to listen to our requirements, their flexibility and attention to detail. Their access to a supplier network of design materials, furniture and fittings spans the UK and Europe and they were able to source discounts to the normal sales price for most high cost items. In summary, Thirteen handled the entire process and handed over a completely furnished apartment that met and exceeded our expectations. We are pleased to recommend Thirteen. ”

1 Whether it's a face to face meeting, a phone call, Skype or email, the first step is learning about the project. Then we'll survey your property or work from floor plans to establish the best use of space.

2 We will then create initial concept designs, taking into consideration your lifestyle and the latest trends. This ensures that our ideas are perfectly aligned with yours.

3 Next, we prepare a detailed design scheme working within budget. We create and present beautiful mood boards with an itemised quotation for you to approve and sign off.

4 The last step is for us to fully manage and co-ordinate the ordering, delivery and installation process, ensuring that all elements of the project are delivered on time.

Simple

We appreciate that a lot of our customers are very busy and often overseas, so you will find working with us very straight forward and stress free. Simply sign off the design and can rest assured that your project is in safe hands.
